

**2012 Official Class Painting
"Untitled"
By Richard R. Broome**

PRE PUBLICATION OFFER EXPIRES JANUARY 1, 2011

The **Digital Layout below** shows the perspective and angle of the 2012 Official Class Painting.

This is just a **DIGITAL** representation of the final painting.

The actual painting will be from a higher altitude and will show more of the Cadet area including the Terrazzo, Eagle Peak, and more of the front range.

This will be a unique painting, different from many of Rick's other works because the artwork will be more of a Panoramic view. Rick will be Starting the Original Painting within the next couple weeks as soon as all the research material is in hand. Other notes about the painting. The Two F-22's will be from different squadrons. The Lead 22 will have a First Fighter Tail with actual tail number 054. The trail 22 is from the Special Training Squadron OT, with actual tail number 012.

The A-10 will be from the Flying Tigers.
